Diving Well Rules

- Anyone under the age of 14 must take the **swim test** to be admitted into the diving well area.

Swim Test

1. Swimmers who wish to take the swim test must report to the office and request to take the test.
 2. Under the supervision of a lifeguard, the swimmer will be asked to swim 1 complete lap from the deep end to the shallow end. The swimmer must swim the entire length on the front (no back) and is not allowed to stop, grab the wall, or touch the bottom during the test. If the swimmer is able to accomplish this task, the swimmer will be given a wrist band that will need to be worn to be allowed to enter the diving well area. If the swimmer does not pass the test, the swimmer may try to re-take the test at another time. If the swimmer is on the swim team and is able to swim the required length in the manner described above, the swimmer will be logged in the book for the season.
 3. The swimmer's name will be recorded in the Swim Test Log. Once a swimmer passes the test, he/she will not need to re-take the test each day. Each day, the swimmer will need to report to the office and will be able to receive a new wrist band.
 4. We will have monthly checks of swimmers. A sign will be posted to alert swimmers when a new swim test will need to be taken.
- No flips off of the diving board.
 - No flotation devices allowed in the diving well.
 - Jumping/swimming between the 10-12 ft. area is left to the discretion of the lifeguard on duty.
